NASHVILLE'S HIGHLAND RIM FOREST · METRO'S OWN PLANS, 1973 TO 2026

Recommended 216 times.

Since 1973, Metro Nashville's own plans have made the same 19 recommendations for the forest that rings the city, 216 times over 53 years. One is classified implemented.

216

times Metro's plans made the same 19 forest recommendations, in 13 documents

1 of 19

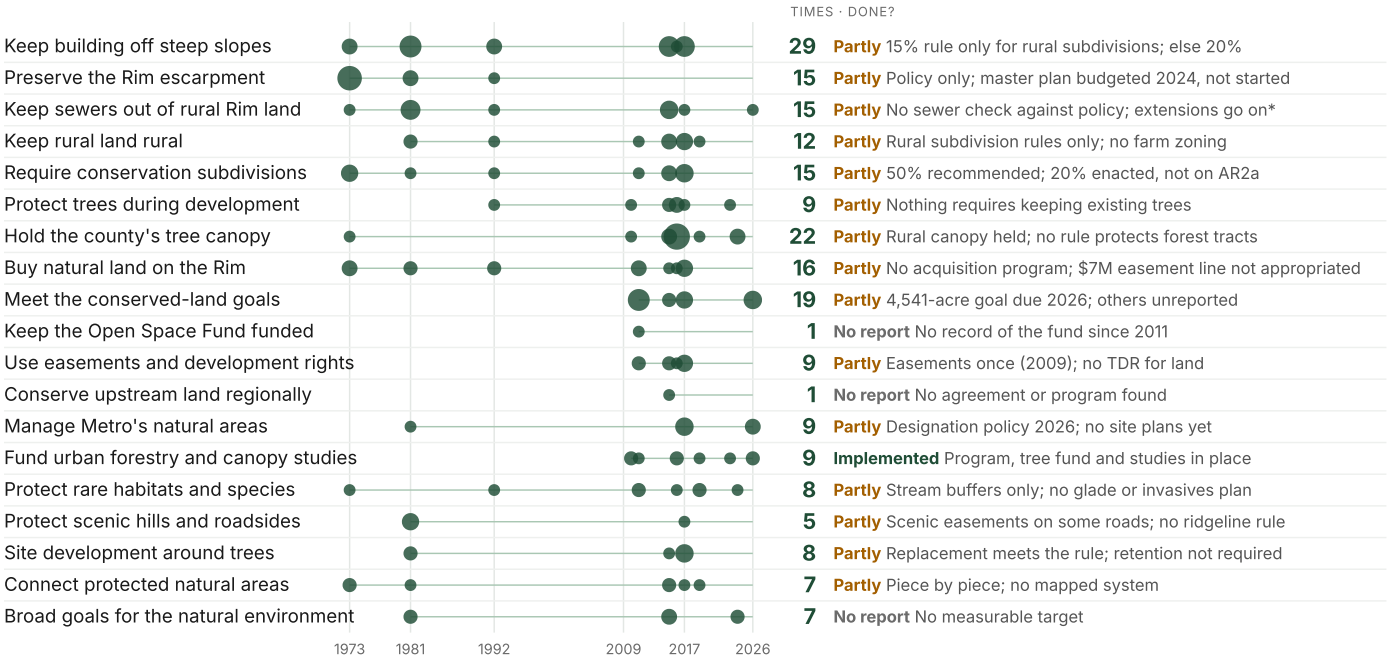

classified implemented: the urban forestry program; 15 partly implemented, 3 with no implementation reported

15 of 32

Metro documents we reviewed make forest recommendations

THE SAME 19 RECOMMENDATIONS, 1973 TO 2026

Each dot is a year a Metro plan made the recommendation; larger dots mean more statements that year. Gaps are years with no plan in our sources.

THE DOCUMENTS (15, by year) **1973** Natural Environmental Analysis · **1981** General Plan · **1992** Concept 2010 · **2009** Green Infrastructure Master Plan · **2010** Tree Canopy Assessment · **2011** Open Space Plan · **2014** Home Buyout Audit · **2015** NashvilleNext · **2016** Urban Forestry Landscape Master Plan · **2017** Plan to Play · **2019** MS4 Annual Report FY19 · **2023** Urban Tree Canopy Assessment · **2024** Climate Adaptation and Resilience Plan · **2026** Hazard Mitigation Plan · **2026** Plan to Play 2026 Update

FOR THE ECOLOGICAL CONSERVATION STRATEGY

Bind it. Adopted rules and code, not policy. **Fund it.** Dollars tied to acres. **Report it.** Dated targets and a yearly public report.

> "…we have all the plans we need to make progress."

Alliance to Conserve Nashville's Highland Rim Forest · November 2026. We reviewed 32 Metro documents, 1973 to 2026 (plans, studies, reports, and the ordinances, code and minutes that show what was enacted), and pulled 1,272 statements on forests, trees, open space and slopes. 340 are forest recommendations, in 15 documents; 216 restate the same 19 shown here. Every figure traces to a document and page (research workbook v1.6.0). *Alliance report; records requested.
